## Supplier presentation – Innova Biosciences

**Innova Biosciences**  
first for Antibody labeling

*Solutions for antibody labeling*

### [Lightning-Link - the World's Easiest to Use Antibody Labeling Kits](#)

Lightning-Link™ is a one step antibody labeling method that requires only 30 seconds of hands on time, and as there are no separation steps antibody recovery is 100%.

### [imm-Link™ immunogen kits](#)

The imm-Link™ kits (sulhydryl, carboxyl, amine) allows haptens to be conjugated to a carrier protein simply by adding the hapten to a proprietary mixture containing the carrier protein (BSA, KLH, Ovalbumin) and all the required conjugation chemistry. The hands-on time to set up the conjugation reaction is typically 20-30 seconds.
